PRASANTH A

Full Stack Developer

+91-9159985533 | prasanth12.career@gmail.com | https://www.linkedin.com/in/prasanth-a-908a7a223 | MADURAI

SUMMARY

Backend-focused **Full Stack Developer** (2019 pass out) with **5 years of experience** building scalable server-side applications and RESTful APIs using Node.js. Skilled in backend optimization, modular architecture, and secure authentication. Strong backend expertise in **Node.js** without AI tools, and AWS, with solid **DSA** and tree knowledge. Proficient in frontend technologies including Angular, **React**, and PHP. Known for fast learning, strong problem-solving, and delivering stable, production-ready code.

EXPERIENCE

Frontend Team Lead
Warely Technologys
Jul 2025 - present

- **Developed a full POS (Point of Sale) application from scratch for Singapore-based users**, designing and implementing the frontend using React.js and building the backend with PHP. Contributed to end-to-end architecture, UI workflows, API integrations, and performance optimization to ensure a seamless retail experience.
- **Built and enhanced a complete e-commerce application**, covering core modules such as product management, cart and checkout flows, user authentication, payment integration, and order tracking. Ensured scalable backend logic and smooth frontend user interactions

Software Analyst
Chain-Sys India Pvt Ltd, Elcot IT Park, Madurai
Aug 2022 – Jul 2025

- Developing enterprise-level product features using Angular (front-end) and **Node.js (back-end)**.
- Developed a dynamic **drag-and-drop builder** enabling users to create and configure custom project layouts in real time.
- Building optimized APIs, reusable UI components, and modular architecture.
- Enhancing application performance and supporting cross-functional teams through Agile practices.

Associate Software Engineer
Shell Technology Solutions
Mar 2022 – Aug 2022

- **Designed secure, high-performance backend systems** by implementing RBAC, JWT-based authentication, caching with Redis, optimized SQL queries, error-handling middleware, cron jobs, and scalable service layers.
- **Improved API reliability and collaboration** through detailed Swagger/Postman documentation, smooth integration with frontend/QA teams, and continuous performance monitoring and tuning.

Full Stack Developer
 Hitasoft Technology Solutions Pvt Ltd
 Sep 2020 – Mar 2022

- Created and developed high-performance **Node.js**-based e-commerce applications.
- Successfully delivered and deployed **5+ production websites**.
- Implemented payment gateways, order workflows, inventory management modules, and cache optimization.

Elysium Academy & Java course
 Jul 2019 – Sep 2020

- Completed a comprehensive Java training program
- Created student projects using PHP and Angular as part of the coursework

TECHNICAL SKILLS
Back-end: **Node.js (Express, Sails)**, PHP (Laravel, Yii2)
Front-end: Angular, **JavaScript**, TypeScript, HTML5, CSS3
Databases: **MySQL, MongoDB, CouchDB, Docker,** Git, Postman, Figma, VS Code, Eclipse
Other Skills: API Development, Scalable Architecture, Microservices, Debugging

SOFT SKILLS

- Analytical Thinking
- Collaboration & Teamwork
- Communication Skills
- Organizational Skills
- Project Management

STRENGTHS

- Quickly adaptable to new technologies
- Strong problem-solving mindset
- Clean coding & efficient debugging
- Ability to deliver under deadlines

EDUCATION
Bachelor of Engineering (Computer Science Engineering)
Government College of Engineering, Bodinayakkanur, Theni, India
May 2019
